AGM Update

Race Fees stay the same.
Club membership stays the same, BRCA up a £1,
Touring cars can now use 13.5 brushless & LiPO,
Mardave brushless being investigated,
Charging current stays at 1C,

Mardave Brushless Update

The BRCA passed a rule allowing Mardave V12 to include this class in 2009, currently it is any speed controller up to £65, with any brushless motor. Clearly this is not what we discussed at our AGM and is very unlikely to be our way forward. We have a Mardave brushless system on order, and when we have it will allow everyone to try it.

Congratulations
